- What is your mother's maiden name?
- What was the name of your first pet?
- What is the name of your birthplace?

This information is required should we need to confirm your identity at a later date if you call our Customer Service centre. For example, if you call to change personal data or report a lost or stolen SIM card. When you call the Customer Service centre they will ask you the question that you have selected and you will be asked to confirm the answer.

D. Invoice Options

In this section you are able to choose your options for itemisation reports and storage of your call data.

In the Settings for Itemisation Reports (**Einstellung für den Einzelverbindungsdaten**) section you can choose from the following drop down menu items:

Option	Explanation
Shortened Itemisation	If you select this option you will receive a full itemisation report for each monthly invoice. On the itemisation report the last 3 digits of each call you make, or number you send an SMS or MMS to, will be replaced by XXX. This ensures your privacy.
No Itemisation	If you select this option you will receive a standard summary invoice with no detailed breakdown of your usage data.
Complete Itemisation	If you select this option you will receive a full itemisation report for each monthly invoice. On the itemisation report all numbers for each call you make or send an SMS or MMS to will be displayed in their entirety.

In the Invoice Options there is a question regarding storage of call data records (**Speicherung der Verbindungsdaten**). You can again choose from the following drop down menu items:

Option	Explanation
Shortened Storage	If you select this option your Call Data records will be stored for 6 months for each invoice that we generate for you. However on your itemisation report the last 3 digits of each call you make, or number you send an SMS or MMS to, will be replaced by XXX. This ensures your privacy
No Storage	If you select this option all your Call Data records will be deleted after we invoice you. Please note once that this has been selected your call data records cannot be retrieved once we have generated an invoice for that billing period. Please note that we cannot accept any complaints regarding itemisation on closed invoices or complete any retrospective actions once you have selected this option.
Complete Storage	If you select this option your Call Data records will be stored for 6 months for each invoice that we generate for you. However, on the itemisation report all digits of each call you make, or number you send an SMS or MMS to, will be displayed in their entirety.

Once you have answered these questions and confirmed your preferences you will not see this screen again. However, you can at any time change or amend any of these options via **DeinACN Mobile**. If you, at a later date, would like to change your invoice options, simply click on **Deine Verträge**, select the contract that applies to your number and click on **Ändern**. Please refer to Section 6 of this document for more information. If at a later date you would like to change your security question and answer, simply click on **Dein Passwort** and you will again see the drop down menu screen where you can select the security question and enter the answer.

If you click on **Später Beantworten** you will see this screen each time you log in until you have completed the required information. We recommend that you complete all this information the first time you log in to ensure the integrity of your data and make the use of our services as simple as possible.
